

# Nalgonda Model Schools Surveillance Project

Brihaspathi Technologies has completed yet another prestigious project successfully. We worked with 11 Model Schools in the Nalgonda District for the Installation Of CCTV Cameras and Biometrics. In every school we installed 16 “**2MP AHD Bullet Cameras**” and 4 “**Aadhaar Enabled Biometrics**”

The main purpose of CCTV cameras in the Schools, with the intention of monitoring or recording students, Staff as well as visiting members of the public. The School will have the greatest possible regard for the protection , care and ensure that the systems are not used in any unauthorised or inappropriate manner.

We Installed “Aadhaar Enabled Biometric” Time & Attendance System, 3 for School and 1 for Hostel. The Principal of the respective school will be the custodian of the device. The system has been adopted to ensure better monitoring of the attendance of teaching and non-teaching staff at schools. After registration, a login ID and password would be provided for the user.

After accessing the portal through the login ID, the attendance should be registered by entering the biometric information which will be authenticated by matching it with the data stored in the Unique Identification Authority of India (UIDAI) database.

The Complete monitor of all the Schools sight will be viewed by Head officer of RMSA Model School which is located at Hyderabad.

**SCOPE OF WORK:**

Furnish, upgrade and install a complete CCTV system as described herein for Nalgonda Model School with the latest technology.

<b>Type of camera / Item</b>	<b>Point of Building</b>	<b>Access</b>
